

Hidden Valley School

Both Grade 2 French Immersion classes at Hidden Valley School composed and illustrated a collective story based on the illustrative style of Barbara Reid. Barbara Reid is a world renowned, award winning, Canadian author and illustrator who creates her pictures with modeling clay. To learn how to create these books, check out the attached notebook series. (see D2L SHELL- alphabetisation-cr er un livre collectif en p te a modeler.)

The 2 books were such a success that parents ordered their own copies! Because they received a 30% discount at the time of purchase they were able to donate \$305.18 to the Slave Lake Public Library! They also decided to donate copies of their story books to the library in order to help rebuild their collection. Way to go rooms 1 and 2 for being such caring, global citizens!
